Core skills

Environmental Sciences

- ESG and sustainability Reporting
- Carbon Footprinting and GHG Accounting
- EIA and LCA
- Air, Water & Soil Quality Assessment
- Wastewater Treatment Processes (Primary, Secondary, Tertiary Treatment)

Data Analytics & Technology

- QGIS and Spatial Analysis
- Openlca
- Workiva
- Python (pandas, matplotlib, plotly)
- Data Visualization and Statistical Analysis
- Advanced Excel
- Power Bi

Frameworks & Standards

- GRI
- BRSR
- Net Zero Fundamentals

Professional Skills

- Research and Technical Report Writing
- Presentation Skills
- Project Management

Career Objective

Motivated Environmental Science student skilled in Python, GIS, Excel, and environmental data analysis, seeking to apply analytical and problem-solving skills to deliver data-driven solutions that support environmental consulting, ESG, sustainability, and sustainable development initiatives.

Professional training/Courses and projects

- **Worked as an intern at TOWASO** "TOWASO is a company dedicated to innovative waste management solutions. Working on EPR and analysis related to waste generation and disposal gained hands-on experience and contributed to sustainable practices that make a real impact on the environment" from may 2025 to July 2025, Jamshedpur, Jharkhand
- **Corporate Carbon Footprint Calculator using Python, Pandas, Excel**, Developed a carbon footprint calculator to estimate organizational greenhouse gas (GHG) emissions across Scope 1, Scope 2, and Scope 3 categories in accordance with GHG Protocol principles
- **Comparative Life Cycle Assessment of Plastic vs. Paper Bags | OpenLCA, Excel**, Performed a cradle-to-grave LCA comparing plastic and paper bags, analyzing carbon emissions, energy use, water consumption, and resource depletion to evaluate sustainable packaging alternatives.
- **Urban Heat Island Analysis | QGIS, Remote Sensing**, Performed geospatial analysis of urban heat islands using satellite-derived LST and NDVI data, identifying heat-vulnerable zones and generating insights to support climate-resilient urban planning and green infrastructure

- **ESG Intelligence Dashboard (Ongoing) | Power BI, Python, Excel**, Developing an ESG analytics dashboard to track and visualize key sustainability indicators, including carbon emissions, energy consumption, water usage, waste generation, and workforce metrics.
- **Working on GIS based analysis of water quality of Odisha using QGIS**, analyzing 10 years of water quality data through thematic mapping and catchment analysis.
- **Presented a paper titled "Causes,Consequences and Remedial Measure of Tsunami"** A Case study of The Infamous 26 Dec 2004 Indian Ocean Tsunami" in an international conference Research, Innovation and IPR for Sustainable Development and Vikshit Bharat in Nov 2024
- **Serving as a District Coordinator** of Dhanbad at Indian Biodiversity Conservation Society (IBCS) from March 2024 to Present.
- Completed a Course on Waste Management through NPTEL from Oct 2025 to Dec 2025
- Completed a 2 month course in MS Excel from IBM through Coursera from Feb 2024 to March 2024.

Education

Course/Degree	Institution	Board/University	Year of Passing
B.Sc(Hons.)	Tribhuvan College of Env & Dev Sciences	Nalanda University	Pursuing (3rd Year)
10+2 (Senior Secondary)	R.S. More College	JAC	2022-23
10th (Secondary)	DAV Public School	CBSE	2020-21

6th Semester Marks :- 9.12 SGPA

Extracurricular Activities

- Winner of a college Debates Competition
- Participated in organizing college festivals and events, collaborated with teams to plan, manage, and execute engaging activities.
- Winner of the Waste to Wealth Competition
- Winner of a case study competition on topic "The Floating Garden of Bangladesh"
- Performed in drama productions and stand-up comedy, showcasing creativity, stage presence, and audience engagement .
- Active sportsperson with experience in cricket; served as the captain of Dhanbad team and led the team to a championship victory.
